For the Bowels

A Cure for Chronic Constipation, Torpid Liver and Irregular Bowel Movements.

HERBINE

Constitution is the most common disorder of the bowels. It inflects both sexes and all ages but is more prevalent among women because their duties in the household require less physical exercise than the occupations of men; therefore women suffer most from its baneful effect.

A constituted person is an easy victim when exposed to any serious disease—Pneumonia, Typhoid Fever, Maiaria, Rheumatism, Small Pox, Yellow Fever and Bright's Disease gather their annual harvest of death among those who are habitually constituted. Even though they encape these diseases, such persons are always alling more or less. They have headaches, bad digention, dizsiness, virtigo (blind staggert), sallow complexion, fatulence, low of strength; and no energy at all. Herbine has a most admirable effect in the bowels; it is enoling, purifying and regulating. It puts a prompt check on billiousness, wind in the bowels, nervousness, heartburn, had breath, low spirits, drowsiness in the day-time and nervous wakefulness at night.
